EDINBURGH AND LONDON

INTERNATIONAL SOCIETY FOR HUMAN AND ANIMAL MYCOLOGY

President
N. F. CONANT

General Secretary
R. VANBREUSEGHEM,
Institut de Médecine Tropicale,
155 rue Nationale,
Antwerp, Belgium.

Editor
J. C. GENTLES

Vice-Presidents
L. AJELLO
E. DROUHET
C. DA SILVA LACAZ
T. TSUCHIYA

Treasurer
A. P. E. TRITSMANS,
Nationalestraat 155,
Antwerp,
Belgium.

SOCIÉTÉ INTERNATIONALE DE MYCOLOGIE HUMAINE ET ANIMALE

Printed by George Outram & Co. Ltd., 36 Tay Street, Perth, Scotland

Achorion gypseum, 114
Actinomyces naeslundii, atypical strain, 26
— — factors influencing fermentations by, 26
— — physiology and fermentations of, 26
Agglutination inhibition, in immunochemical study of yeast polysaccharides, 288
Amphotericin B, in treatment of phycomycosis, 143
— — in treatment of experimental sporotrichosis in mice, 192
— — in treatment of pulmonary aspergilloma, 167
Antigenic analyses, of *Hansenula*, 155
Armadillo, role in epidemiology of sporotrichosis, 64
Arthroderma curreyi, dispersal by birds, 275
— — saprophytic survival in soil, 275
— quadrifidum, factors affecting sexual reproduction in, 245
— — on birds, 275
— uncinatum, factors affecting sexual reproduction in, 245
Aspergillus fumigatus, in pulmonary aspergilloma, 167

Blastomyces dermatitidis, cross reaction with *Histoplasma capsulatum*, 164
— — encountered in Africa, 306
Blastomycosis, clinical and pathological details of African cases, 306
— North American, in Africa, 306
Bufo melanostictus, fungal infection in, 279

Candida albicans, description of "pseudo germ tube" as tissue phase, 225
— — factors influencing the growth of, 52
— — groups A and B, in study of surface antigens, 288
— — in sputum, 185
— — morphogenesis *in vivo*, 225
— — precipitating antibodies against, 312
— — preparation of somatic antigenic extract of, 129
— krusei, in sputum, 185
— parapsilosis, in sputum, 185
— pseudotropicalis, in sputum, 185
— stellatoidea, study of surface antigens of, 288
— tropicalis, in sputum, 185
— — form in mouse tissue, 225
— — in experimental candidiasis, 261
— — study of surface antigens of, 288
Candidiasis, effect of oxytetracycline, hydrocortisone and metabolic imbalance on, 261
— experimental and clinical studies on antibody formation, 129
— experimental, due to *C. tropicalis*, 261
— paper-electrophoretic globulin patterns in systemic infections, 129
— P.C.A. (passive cutaneous anaphylaxis) test in, 129
— precipitating antibodies in, 129, 312
Caparinia tripilis, associated with *T. mentagrophytes* var. *erinacei* on hedgehogs, 1
Chromatography, of pigments produced by fungi, 40, 72
Coccidioides immitis, aerosol challenge to, 106
— — identification of, 16
— — isolation from soil, 16
— — unusual form of, 16
Coccidioidomycosis, comparison of serologic reactions, 106
— experimental in dogs and monkeys, 106
Complement fixing antibodies, in nocardiosis, 303
Cross reactions, between *H. capsulatum* and *B. dermatitidis* in mice, 164
Ctenomyces serratus, on birds, as a probable soil inhabitant, 275

Dasypus novemcinctus, in epidemiology of sporotrichosis, 64
Diplorhinotrichum gallopavum, sp. nov., as agent of encephalitis in turkeys, 239
Dog, experimental coccidioidomycosis in, 106

Eidamella deflexa, characterization of pigments, 40
Encephalitis, in turkey poults, 239
Endothrix infection, first case in southwestern Ontario, 50
Epidermal strippings, transfer to gelatinized slides, 21
Epidermophyton radiosulcatum var. flavum, 114
Errata, 183, 260

Favus, of fowl in Brazil, 233
Fungus ball, intracavitary due to *A. fumigatus*, 167

Gymnoascus gypseus, taxonomic position, 114

Hamster, organism from periodontal plaque, 81, 93
Hansenula angusta, serological studies, 155
— beigerinckii, serological studies, 155
— ciferrii, serological studies, 155
— jadinii, serological studies, 155
Histoplasma capsulatum, comparison with *H. duboisii*, 211
— —, cross reaction in mice with *B. dermatitidis*, 164
— — morphological study of yeast phase, 211
— duboisii, morphological study of yeast phase, 211
Hydrocortisone, effect on experimental candidiasis, 261

Income and Expenditure account, 184
Intracavitary fungus ball, clinical and pathological features, 167

Japanese society for medical mycology, meetings, 128

Keratinomyces ajelloi, from soil in Africa, 235
Keratinophyton terreum, gen. nov., sp. nov. from soil in India, 251

Madura foot, caused by *Phialophora jeanselmei*, in Britain, 175
Malassezia furfur, morphological and antigenic relationships, 21
Malayan toad, fungal infection in, 279
Meetings of Japanese society for medical mycology, 128
Metabolic imbalance, effect on experimental candidiasis, 261
Micrococcus pyogenes var. aureus, interaction with *C. albicans*, 52
Microsporum fulvum, conidial state of *N. fulva*, 114
— gypseum, complex of species, 114
— — conidial state of *N. incurvata* and *N. gypsea*, 114
— — from small mammals in Egypt, 140
— — from fowl in Brazil, 233
— — from soil in Africa, 235
— — a genetic study of, 195
Monkey, experimental coccidioidomycosis in, 106
Monosporium apiospermum, from soil in Africa, 235
Mucormycosis, *see* phycomycosis
Mucor ramosissimus, as cause of phycomycosis, 143
— — isolated in Uruguay, 143, 151
— — taxonomy, 151

Nannizzia incurvata, 114
— — factors affecting sexual reproduction, 245
— — genetic study of, 195
— fulva, sp. nov., 114
— gypsea, comb. nov., 114
— — genetic study of, 195
Nocardia asteroides, comparison with organism from periodontal plaque in hamsters, 81, 93
— — complement fixing antibodies, 303
— dentocariosus, 81, 93
— salivae, 81, 93
North American blastomycosis, encountered in Africa, 306
Nystatin, sensitivity of *Rhizopus oryzae*, 148

Obituary, 257
Oxytetracycline, effect in experimental candidiasis, 261

Pancreatin, for liquifying sputum, 185
Pathogenic fungi, from soils of Africa, 235
— — from small mammals in Egypt, 140
Periodontal plaque, of hamsters, characteristics of organism from, 81, 93
Phialophora jeanselmei, as cause of madura foot, taxonomic position, 175
Phycomycosis, histopathology and mycology, 148
— mucocutaneous in man, 143
— rhinocerebral in Britain, 148
— treatment with amphotericin-B, 143
Pigments, of *Eidamella deflexa*, 40
— production by *Trichophyton rubrum*, 72
Pityrosporum orbiculare, etiological significance in *tinea versicolor*, 21
Pleomorphism, genetic study in *Microsporum gypseum*, 195
Potassium iodide, in treatment of sporotrichosis in dogs, 273
Precipitins, in candidiasis, 129
— of coccidioidomycosis in agar gel, 106
Pulmonary aspergilloma, clinical and pathological features, 167

Reviews:

Bridge Cooke, W. *A Laboratory Guide to Fungi in Polluted Waters, Sewage and Sewage Treatment Systems*, 1963 (by J. C. Gentles), 258
C.M.I. *Descriptions of Pathogenic Fungi and Bacteria*, 1st set 1964 (by J. C. Gentles), 259
Emmons, C. W., Binford, C. H. & Utz, J. P. *Medical Mycology*, 1963 (by J. C. Gentles), 258
International Symposium on Opportunistic Fungus Infections, 1962 (by Lucille K. Georg), 180
Morenz, J. *Geotrichum candidum*, 1963 (by H. Seeliger), 182
Smith, H. & Taylor, Joan, editors, *Microbial Behaviour 'in vivo' and 'in vitro'*, 1963 (by D. W. R. Mackenzie), 259
Rebell, G., Taplin, D. & Blank, H. *Dermatophytes, Their Recognition and Identification*, 1964 (by J. C. Gentles), 260
Rey, Michel. *Les Mycétomes dans l'Ouest Africain*, 1961 (by I. G. Murray), 127
Winner, H. I. & Hurley, Rosalinde. *Candida albicans*, 1964 (by J. C. Gentles), 324

Rhizopus oryzae, as cause of phycomycosis, 148

Saccharomyces cerevisiae, in sputum, 185
— — in study of surface antigens, 288
— italiens var. melibiosi, in sputum, 185
Serological methods, comparison of 2 in an antigenic study of yeast polysaccharides, 288
— reactions, in coccidioidomycosis, 106
— studies, in the genus *Hansenula*, 155
Serology, of nocardiosis, 303
Sexual reproduction, effect of environmental conditions on, 245
Society news, 128
Soil, laboratory culture of keratinophilic fungi on, 245
Soils, African, isolation of pathogenic fungi from, 235
— Indian, keratinophilic fungi from, 251
Spiral hyphae, in *Trichophyton gallinae*, 233
— — in variety of *Trichophyton rubrum*, 321
Sporotrichosis, epidemiology of, in Uruguay, 64
— experimental in mice, 192
— in dogs in Brazil, 273
— treatment of, 64, 192
Sporotrichum schenkii, experimental infection in mice, 192
— — isolation from dogs in Brazil, 273
— — in Brazil, 64
Sputum, quantitative estimation of yeasts in, 185

Technique, medium for pigment production by *Trichophton rubrum*, 72
— precipitating antibodies as an aid in diagnosis of systemic candidiasis, 312
— procedure for quantitative estimation of yeasts in sputum, 185
— transfer of epidermal strippings to gelatinized slides, 21

Temperature, effect on experimental sporotrichosis in mice, 192
— effect on sexual reproduction of keratinophilic fungi, 245
Tinea corporis, due to *Trichophyton soudanense* in U.S.A., 301
— versicolor, culture of *Pityrosporum orbiculare* from, 21
— — etiology, 21
— — immunofluorescence, 21
Tissue response, in evaluation of results in experimental mycoses, 164
Torula bergeri, 175
— jeanselmei, 175
Torulopsis glabrata, in sputum, 185
—utilis, serological studies of, 155
Trafuril, in treatment of sporotrichosis, 64
Trichophyton equinum, epizootic in horses in Brazil, 14
— gallinae, in Brazil, 233
— indicum, from soil in India, 251
— mentagrophytes, chronic infection in a cat, 11
— — clinical and histological study in a cat, 11
— — distinguished from *Trichophyton rubrum*, 72
— — from house mouse in Egypt, 140
— — isolation from inanimate sources, 178
— — var. erinacei, description of, from hedgehogs in New Zealand, 1
— — var. interdigitale, strains of, 205
— rubrum, diagnostic tests for, 205
— — distinction from *Trichophyton mentagrophytes*, 205
— — distinctive variety from Nigeria, 321
— — pigment production on new medium, 72
— — variation in and description of strains, 205
— soudanense, isolation in United States, 301
— terrestre, on birds, 275
— tonsurans var. sulfureum, in southwestern Ontario, 50
Turkey, mycotic brain disease in, 239

Yeast phase, factors influencing morphology in *Histoplasma duboisii*, 211
— — size distribution in *Histoplasma capsulatum* and *H. duboisii*, 211
— species, quantitative estimation in sputum, 185
— surface antigens, study by agglutination inhibition, 288
